Frances, we are available to meet and confer at Friday at 1pm.

However, please be advised that if CG3 will not commit to a date certain next week by which it will provide the complete source code for Speakflow in native form, as set forth in our previous correspondence, either for inspection or production, we will seek relief from the Court.

Similarly, if CG3 will not commit to a date certain in the short term in which it will address its considerable outstanding document production deficiencies, we will seek relief from the Court.

Regards

Bryon

Frances, Darius

CG3 has not supplemented its numerous outstanding discovery deficiencies as requested in our October 22, 2021 letter. Nor has it addressed its deficient production of source code. These issues have been outstanding for over a month and are ripe for resolution by the Court. Please let us know when you are available to meet and confer before Wednesday November 10. Otherwise we will take these issues directly to the Court.

Bryon
